Content of reflections appropriate				x	
Project images are high quality				x	
Spelling and grammar are correct				x	

What was your overall first impression of the website?

Overall, it has a good modern design but is very boilerplate like. Should try to shoot for more uniqueness to be more personal to you as it is your resume.

Did you have any technical difficulties as you navigated through the pages and displayed the projects?

N/A

What do you feel are the most effective design elements of this web portfolio?

I like the color scheme, but with the layout, things seem too close together, and it makes looking at the content difficult.

What would you suggest be changed with the design or content of this web portfolio?

Make it more unique to you, fix the adding issues on the pages, and try to go away from basic cards to display your portfolio items.
